1. OBJECTIVE

This procedure details the responsibilities and actions required to regulate and control the movement of personnel into and out of designated Pilbara Ports Authority (PPA) ports. It applies to all personnel and visitors within the perimeter of these port facilities. Although lease holders within PPA port facilities may have additional requirements for access control, this procedure sets the minimum requirements for compliance.

This procedure will also enable the following objectives to be met by the PPA:

- Ensure that all personnel (including visitors) are granted access only to the extent of their authorisations; this includes all Maritime Security Zones;
- ensure that only personnel who have successfully completed the relevant site induction gain access;
- account for all persons on site during an emergency situation;
- protect the port from actions by unauthorised person(s);
- maintain source documents to verify personnel access authority and record of inductions;
- provide a system for determining who is authorised for admittance and who is not, as part of an effective security loss prevention program; and
- reduce the possibility of external threats, including but not limited to theft, sabotage, acts of terrorism and industrial espionage.

2. SCOPE

This procedure applies to the following security regulated port facilities operated by the PPA:

- Eastern Harbour Port Facility, Port Hedland
- Utah Bulk Loading Facility, Port Hedland
- Dampier Port Facility, Dampier

3. DEFINITIONS

Definitions pertaining to this procedure include:

**Authorised Person** - a person who has met the relevant site requirements and has been authorised to enter a port facility by an approved sponsor.

**EACS** - electronic access control system.
Escort - a person who has been assigned to accompany, continuously monitor and safeguard visitors to site.

Harbour Master - a person appointed under section 102 (Port Authorities Act 1999) as the Harbor Master or acting Harbor Master of a port, or authorised under that section to perform the Harbor Masters functions.

Landside Restricted Zone (LRZ) - has the meaning given by Part 8, Division 5 of the Maritime Transport and Offshore Facilities Security Act 2003.

Port Security Officer (PSO) - has the meaning given by regulation 1.20 of the Maritime Transport and Offshore Facilities Security Regulations 2003.

Sponsor - a person who provides advice to PPA and takes responsibility relating to access to the ports for personnel in accordance with the procedures detailed in Section 7 of this document.

Visitor - A person requiring access to a PPA site that has not met all of the PPA access requirements.

4. REFERENCES

This document should be read and applied in conjunction with the following supporting documents:

- Security Policy (A304788)
- Maritime Security Guard Procedures Port Hedland (A302747)
- Maritime Security Guard Procedures Dampier (A346247)
- Security Procedures Port Hedland (A302140)
- Temporary MSIC Procedure Dampier (A412420)
- Remedial Actions for Security Breaches (A303557)

5. RESPONSIBILITIES UNDER THIS PROCEDURE

The following positions are responsible for fulfilling the responsibilities outlined below:

5.1 SECURITY SUPERINTENDENT

The Security Superintendent is responsible for perimeter security, management and performance of the security services contract and for ensuring that the EACS:

- is documented and fully compliant with PPA ICT third party guidelines;
- is compliant with applicable legislation;
• uses PPA project methodologies for all installations or changes;
• is (where possible) supported by PPA ICT;
• maintains inventories for critical spares; and
• has appropriate redundancy and backup systems in place.

5.2 SECURITY SUPERVISORS

The Security Supervisors are responsible for the day-to-day management of the resident security contractor at PPA sites and for the enforcement of the Site Access Control Procedure when required.

The Security Supervisors can also authorise onsite drug and alcohol tests for site access purposes. This is to be done with discretion and only under exceptional circumstance when deemed it may impact PPA operations or reputation. The Security Supervisors are also able to authorise on site drug and alcohol tests for PPA personnel requiring an induction drug and alcohol screen.

5.3 MSIC ADMINISTRATION OFFICERS

MSIC Administration Officers are responsible for administration of the EACS by ensuring that all personnel who require access to PPA operated port facilities satisfy the following requirements:

• have completed the relevant site induction;
• have completed a Site Access Application Form approved by their employer;
• have provided a drug and alcohol screen if being inducted for the first time or when renewing their access card and their induction has expired by more than six months;
• have provided a form of statutory photo identification; and
• have ensured there is no access suspension/refusal recorded already within the EACS cardholder notes.

MSIC Administration Officers are also responsible for entering card holder details into the EACS and for the printing and issuing of access cards.

6. UNESCORTED ACCESS

The following requirements apply to personnel applying for unescorted access to a PPA facility:
6.1 INDUCTIONS

Site specific inductions must be completed for each site based on user profiles and requirements. The minimum requirement for any person is the completion of:

- a Port Security module;
- a Port Occupational Health and Safety module;
- a Port Environment module; and
- a site specific module (Eastern Harbour, Utah and Dampier).

6.2 PERSONAL REQUIREMENTS

All person's when approved for unescorted access takes personal responsibility for his or her actions and behavior whilst on site. They are to follow all site access requirements in this procedure, the induction system and as part of their job function.

6.3 SPONSOR RESPONSIBILITIES

A person requesting unescorted access must be sponsored by another person who can attest to the persons need to enter site and employment status. The person who elects to sponsor a person for unescorted site access is responsible for:

6.3.1 Access control and site regulations

A sponsor must be familiar with and abide by the PPA Site Access Control Procedure. Additionally, a sponsor must also be completely satisfied that the person they are authorising complies with the PPA site regulations and site access control procedures.

6.3.2 Access Levels

When a person is authorised to receive an access card, the sponsor will need to carefully consider the areas the person will be required to access during the course of their work.

6.3.3 Duration of Access

It is the sponsors responsibility to advise the duration of the access to the PPA sites. Access is approved for a maximum of two years from the date of the induction or the contract termination (e.g. during plant shutdown maintenance). Access may only be granted for the duration of that work schedule.
6.3.4 Monitoring and Review

It is the sponsor’s responsibility to ensure that the personnel they sponsor onto PPA sites have a bona-fide operational need for being on the site. Authority to access the port facilities may be removed by the sponsor at any time.

PPA will provide a list of personnel currently sponsored when requested by the employer.

7. ESCORTED REQUIREMENTS

The following requirement pertains to persons accessing a PPA site as a visitor:

7.1 ESCORT

Escorts are personnel who have been assigned to accompany, continuously monitor and safeguard visitors to site, particularly while within restricted zones of the port. An escort must wear an escort armband or lanyard provided by PPA security. Escorts must have a current PPA access card.

7.2 VISITOR

A person may not access a PPA site as a visitor on more than five separate occasions in a year. This is site specific limit of access (i.e. they may access all PPA sites on five separate occasions).

Visitors are also unable to perform manual labor on a PPA site. They may drive a vehicle or attend meetings, however, are not to utilise tools or machinery.

The PSO, Security Superintendent or Security Supervisors may use discretion on the five visit rule or allow visitors to work. However, this is to be done on a case by case basis and only when deemed essential for operations or business connected to the PPA.

A visitor to a PPA site is to wear a visitor armband or lanyard provided by PPA security and be continually monitored by their escort. Visitor access passes are normally valid for a 24 hour period.

Visitors are also subject to the random drug and alcohol policy and procedure.

8. OTHER VISITOR TYPES

The following are other types of access that may be used in certain circumstances:
8.1 GROUP ACCESS VISITOR

Group Access Visitor (GAV) cards are issued to groups of five or more people who are sponsored and/or escorted by a PPA inducted person to enter a PPA operated port facility. Their details are still recorded in either the EACS, and/or the Daily Log by the security personnel.

8.2 TEMPORARY ACCESS PASS

Temporary Access Pass (TAP) is a temporary card issued by security personnel out of MSIC office hours to a person, who have met the required PPA access requirements, but have not yet been entered into the EACS.

Personnel who are given a TAP card are to report to the MSIC staff at the first opportunity to be issued the appropriate access card for unescorted access.

8.3 UNION RIGHT OF ENTRY

Union members are given rights of entry under the following requirements:

- That the PPA has received forty-eight hours prior notice (may be waived at PPA discretion).

- The union official has the appropriate identification in his or her possession to indicate he or she represents the relevant union.

- Has an escort during his or her visit.

8.4 VISITORS TO SHIPS AT PPA BERTHS

Visitors to ships at PPA berths will generally be, but not limited to the persons listed below:

- to perform maintenance or repairs on board the vessel;

- be a representative from the ship owner or charterer; or

- be the owner or receiver of cargo on board the vessel.

Any visitors who fit into this category must be in possession of statutory photo identification, their details entered into the EACS and issued with a visitor pass. For these visitors an ‘Escort’ armband is not required. Once the visitor is onboard the vessel, they become the responsibility of the Master.

Visitors to ships must be signed in by the holder of a PPA access card, who in most circumstances will be the shipping agent.
9. SITE SPECIFIC REQUIREMENTS

The following section details the site specific requirements for access to the respective sites:

9.1 EASTERN HARBOUR PORT FACILITY

An MSIC is required for access into the Land-side and Water-side Restricted Zones at the Eastern Harbour Port Facility. A person who is not the holder of a valid MSIC may enter an LRZ or WRZ; however, they must be continuously escorted and monitored by the holder of a valid MSIC.

9.2 UTAH BULK LOADING FACILITY

An MSIC is required for access into the Land-side and Water-side Restricted Zones at the Utah Bulk Loading Facility. A person who is not the holder of a valid MSIC may enter an LRZ or WRZ; however, they must be continuously escorted and monitored by the holder of a valid MSIC.

9.3 NELSON POINT TUG PEN

The area within the Nelson Point Tug Pen perimeter fence is designated as an LRZ and WRZ and as such all personnel who require access to the Nelson Point Tug Pen must be the holder of a valid MSIC. If a person who is not the holder of a valid MSIC requires access to the Nelson Point Tug Pen, they must be continuously escorted and monitored by the holder of a valid MSIC.

As the Nelson Point Tug Pen is a BHP Billiton lessee site personnel must also be approved by a representative of one of the following companies before access is assigned to their PPA access card:

- BHP Billiton
- Rivtow Marine

The PPA and contractor personnel listed below require operational access to the Nelson Point Tug Pen:

- PPA Operations
- PPA Maintenance
- Port Hedland Pilots
- Go Marine
9.4 DAMPIER AREA REQUIREMENTS

The whole of the Dampier Port Facility from the entry/exit gates is an LRZ and as such all personnel who require access must be the holder of a valid MSIC. A person who is not the holder of a valid MSIC may enter the Dampier Port Facility; however, they must be continuously escorted and monitored by the holder of a valid MSIC.

10. EXCEPTIONS

The following exceptions apply to this procedure:

10.1 MSIC EXCEPTIONS

The personnel listed below are exempt from holding an MSIC inside a Maritime Security Zone when on official business:

- Australian Border Force personnel;
- Australian Federal Police;
- Australian Defence Force personnel;
- State/Territory Police; and
- Hazard Management Agency personnel responding to an emergency.

10.2 GENERAL ACCESS AND VISITOR EXCEPTIONS

The relevant PSO, Security Superintendent or Security Supervisors may also waive any access requirement that is in line with the procedures detailed in the relevant approved Maritime Security Plan when deemed in the interest of the PPA.

The relevant PSO, Security Superintendent or Security Supervisors may also waive the restrictions on visitors only having five visits under exceptional circumstances and are deemed in the interest of the PPA.

10.3 Exceptions during an emergency

During an emergency situation site access requirements do not apply to the responding or controlling personnel. On cessation of the emergency the normal site requirements again apply.

11. SITE ACCESS SUSPENSIONS AND CANCELLATIONS

A person’s access can be suspended, refused or cancelled by HR personnel by the respective PPA site Security Supervisor or Security Superintendent pending the outcome of any investigation into any incidents contravening a PPA procedure.
The PPA site Security Supervisor or Security Superintendent may also suspend a person’s access due to security breaches or other events, subject to the Remedial Actions for Security Breaches Procedure.

Once a decision has been made to suspend, refuse or cancel access then a relevant note will be made on the person's electronic profile in the EACS. At all times a note will include who is the best point of contact should access need to be reinstated by another person.

12. CHANGES IN CARD ACCESS HOLDERS CIRCUMSTANCES

The following procedure applies to changes in card holders circumstances:

12.1 LOST OR STOLEN CARDS

It is the card owner's obligation to notify the PPA if their access card has been lost, stolen or destroyed. Once notified the PPA will ensure that the access card is disabled in the EACS immediately.

12.2 CHANGE OF EMPLOYER DETAILS

All personnel are required to notify MSIC administration personnel of a change in employer details, by completing and submitting a Site Access Change of Details Form (A420216). An access card that does not have the name of a card holder's current employer on the card will be classified as an invalid card. When changing from one employer to another, the card holder must provide the relevant PPA MSIC office with a completed PPA Site Access Application Form (A281720) that has been authorised by their new employer.

Security personnel will check access cards on a regular basis and advise those access card holders who have changed employers that they must attend the MSIC office to be issued with a new access card with their new employers details and record the relevant information within the EACS system. If a person who has changed employers fails to attend the MSIC office to be issued with a new access card, their card will be seized and made inactive within the EACS.

12.3 LEAVING EMPLOYMENT

When a person leaves their employment, no longer has an operational need for a PPA access card or their access card expires, the card must be returned to the MSIC office for disposal. When this is done PPA will be disable the card in the EACS immediately.

12.4 EXPIRED ACCESS CARDS

When a person’s PPA access card is found to be expired, by either Security or PPA personnel they are to advise that person to attend the MSIC office prior to them being authorised to access the port. The Security or PPA personnel who identified the expired
card are then to make arrangements to have the card disabled in the EACS as soon as practicable.

If a person’s PPA card expires, it generally means their PPA induction has expired. As a result the induction has to be re-sat, prior to attending the MSIC office to get their card reactivated.

13. ACCESS FLOWCHARTS

The following access flow charts are provided as an aid to staff or contractors on how the access procedure works:

13.1 UNESCORTED ACCESS

[Diagram of access flowchart]

**Notes**
- If an MSIC printed on a proximity card is used as an access card it is only programmed to the expiry date of the MSIC or the induction expiry date, whichever comes first.
- Inductions are valid for a maximum of 24 months.
- A drug and alcohol screen is only required for the initial induction or a renewal which has expired by more than 6 months.
13.2 ESCORTED VISITOR ACCESS – PORT HEDLAND

1. Visitor
2. Arranges a escort to meet them at the relevant security gatehouse - Eastern Harbour or Utah
3. Produces photo identification to establish their identity
4. Security Officer
5. Sights photo identification and checks Gallagher EACS to ensure person is permitted to enter site as a visitor (not signed in as visitor more than 5 times)
6. Checks that the visitor has the correct PPE
7. Visitor and escort's details enter into Gallagher EACS (trip to escort names)
8. Visitor pass created and issued to visitor
9. Visitor permitted to access site with escort
10. On completion of visit escort/visitor return to security gatehouse and return visitor pass
11. End of process

Visitors are classified as:
- Persons attending the port for an escorted tour
- Attending a meeting on site
- Persons attending the port for a tender briefing to enable preparation of a tender or quoit or to perform a visual inspection of the port or infrastructure
- Truck driver's doing one-off deliveries, who are unlikely to return to the port

Persons who require regular access to the port for any of the abovementioned activities must sit the required PPA Inductions and be issued with a PPA access card.

A person who has left their PPA access card at home does not qualify as a visitor, and will need to return home and retrieve their access card.

Notes:
- Persons are not permitted to work on a visitor pass except in exceptional circumstances, which may impact on the safety or operations of the Port.
- Sponsor/escort must be the holder of a valid PPA Access Card
- Sponsor/escorts who do not continuously escort and monitor their visitor and return them to the security gatehouse at the completion of their visit may have their privilege to sign in visitors revoked. Any visitor may have up to 3 escorts assigned to them.
- A person is only permitted to enter a port facility five times as a visitor. The person must sit the required PPA Inductions and be issued with an Access Card for any subsequent visits.
- Visitor passes are only valid for 24 hours
- Persons who have misplaced their PPA access card or for those persons whose access card has been lost, stolen or destroyed must attend the MSC Office and obtain a new access card.

13.3 ESCORTED VISITOR ACCESS – DAMPIER

1. Visitor
2. Arranges a escort to meet them at the security gatehouse - Damper
3. Produces photo identification to establish their identity including date of birth (DOB)
4. Security Officer
5. Sights photo identification and checks Gallagher EACS and "access denied (is)" to ensure person is permitted to enter site as a visitor (not signed in as visitor more than 5 times)
6. Checks that the visitor has the correct PPE
7. Visitor details of visits, DOB and company entered into Gallagher EACS
8. Visitor pass created and issued to visitor
9. Visitor permitted to access site with escort
10. On completion of visit escort/visitor return to security gatehouse and return visitor pass
11. End of process

Notes:
- Sponsor/escort must be the holder of a valid MSC and must have completed the relevant site inductions.
- Sponsor/escorts who do not continuously escort and monitor their visitor and return them to the security gatehouse at the completion of their visit may have their privilege to sign-in visitors revoked. Up to three escorts may be assigned to a visitor to allow for operational flexibility.
- A person is only permitted to enter a port facility five times as a visitor. The person must sit the required PPA Inductions and be issued with an Access Card for any subsequent visits. The CEO, a Security Superintendent and Security Supervisor can approve an extension of the five visit rule in exceptional circumstances which may impact on the safety or operations of the Port.
- Visitor passes are only valid for 24 hours.
13.4 GROUP ACCESS VISITOR (GAV)

1. Group of 5 or more Visitors
2. Arranges/attends with escort to meet them at the security gatehouse - Dampier
3. Produces photo identification to establish their identity including date of birth (DOB) for all members of the group
4. Security Officer
5. Sights photo identification and DOB and matches details with manifest for the visit.
6. Checks that the visitors have the correct PPE if applicable.
7. Visitor details of No & dates of visits, DOB and company entered into Gallagher EACS NOTE: At a time convenient, pre or post visit checks Gallagher EACS to ensure person is permitted to enter site as a visitor not signed in as visitor more than 5x times and Daily Occurrence Log
8. GAV pass created and issued to group leader and all visitors issued with visitor card and lanyard
9. Visitors permitted to access site with escort and GAV holder.
10. On completion of visit escort/visitor return to security gatehouse and return visitor and GAV cards
11. End of process

Notes:
Sponsor/escort must be the holder of a valid MSC and must have completed the relevant site inductions and Sponsors/escorts who do not continuously escort and monitor their visitor and return them to the security gatehouse at the completion of their visit may have their privilege to sign-in visitors revoked.
GAV will be issued to group leader and all others in the group will be issued a visitor cards on lanyard. Visitor and GAV Passes are only valid for 24 hours.
A person is only permitted to enter a port facility five times as a visitor. The person must sit the required PPA inductions and be issued with an Access Card for any subsequent visits. The CEO, GMD, Security Superintendent and Security Supervisor can approve an extension of the five visit rule in exceptional circumstances, which may impact on the safety or operations of the Port.
13.5 TEMPORARY ACCESS PASS (TAP)

1. Applicant
2. Completes relevant site induction at www.pilbaraports.com.au Confirmation sent electronically to PPA.
3. Downloads Site Access Application Form from Induction area, completes personal details and gets sponsor to approve.
4. Completes Drug & Alcohol Screening
5. Security Officer
6. Establish persons identity against photo identification provided and ensures accuracy of Site Access Application Form
7. Verify induction completed on Site Access Application Form
8. Check validity of Drug & Alcohol screen and record on Site Access Application Form (confirm D&JA screen completed in ≤30 days)
10. Personal details and proximity card number entered into Gallagher EACS
11. Access level assigned to card and card activated in Gallagher EACS
12. Access Card printed and issued to person for minimum period until MSIC office next open.
13. End of process

Notes:
TAP’s are only issued at Port Hedland.
TAP will be issued only if MSIC office is not open for business. The TAP will be issued for the minimum period which will allow the applicant to present to the MSIC office on the next day the MSIC office is open.
13.6 MEETING PROCEDURE – PORT HEDLAND ONLY

1. Visitor presents at reception for a meeting

2. Visitor has correct PPE for the required visit, or issued PPE from reception

3. Is visitor PPA inducted?

No

4a. Visitor Signs into VISITOR Pass Book

4. Meeting is confirmed via meeting diary or by contacting meeting host

Yes

5. Visitor is escorted by PPA host for meeting/tour and concludes back at reception

6. Visitor returns PPA Pass/PPE to reception where relevant

7. End of process

Notes:
Visitors do not require ID if they are not proceeding past the Admin Building.
However, ID must be presented if the meeting or visit is going to proceed past the Admin building and into the operational port area.

13.7 UNION RIGHT OF ENTRY

1. Union Official requires Right of Entry to a PPA port facility

2. Union Official forwards Right of Entry notice to PPA and entity they are visiting 48 hours prior to visit

3. Union Official attends security gatehouse

4. Security Officer requests Union identification and accreditation to establish identity of union official

5. Security Officer checks that the union official has the correct PPE

6. Security Officer contacts representative from entity union official visiting (if not already in attendance)

7. Sponsor/escort attends security gatehouse and collects union official

8. Security Officer reinforces that union official must be escorted at times whilst on site

9. On completion of visit sponsor/escort returns union official to security gatehouse

10. End of process

Notes:
Union Officials are only permitted to access a port facility to visit the entity listed on the Right of Entry (ROE) notice. They are not permitted to wander around site unescorted or visit entities not listed on the ROE.
Security Officer must record the following information in the Duty Log:
- name of union official and union representing
- name of entity union official visiting
- name of sponsor/escort
- time on site
- time off site
- any other relevant information regarding their visit
14. CARD TEMPLATES

The following templates are to be used as a guide for personnel to be able to read and apply this procedure.

### 14.1 ACCESS CARD TEMPLATES

#### ACCESS CARD TEMPLATES
