¹ Pilotage fees are charged when a pilot is required to aid in the navigation of vessels within the harbour.

² If a vessel's GRT is greater than 60,000, the Cape Size Vessel Surcharge will be applied to the total GRT of the vessel in addition to the Tonnage fee.

³ Wharfage will be charged in respect of cargo which passes on, over, under, through, to or from any berth, wharf, pier, bank, shore, structure or other place within the Port of Port Hedland (the Port), or between vessels within the Port, or over the rail of a vessel, to or from shore, barge, lighter, water, structure or other place within the Port when moored at a berth, wharf, pier, bank, shore, structure or other place within the Port.

⁴ The PHVBS Port Charge will be levied from 1 March 2021 on vessels entering and exiting the inner harbour for the purposes of exporting iron ore. The rates will be levied per vessel movement, once for an inbound movement, and once for an outbound movement. Vessel movements made within the harbour will not attract a PHVBS Port Charge.

⁵ Fresh water is escalated in line with the escalation applied by the Water Corporation

⁶ A variety of oil spill equipment is available to hire in the event an oil spill occurs. All oil response activities are conducted in accordance with AMSA's National Plan which states "the polluter pays". For further details and to report any oil spills kindly contact Port Hedland Port Control on VHF Channel 16, VHF Channel 12 or by telephone +61 8 9173 0030.

⁷ A discount of 50% to tonnage fees will apply to bulk carriers entering the Port of Port Hedland that use a PPA licensed Service Provider to bunker LNG.
Vessels that take on LNG bunkers using a PPA licensed LNG Bunkering Service Provider for more than one port call shall receive a 50% discount to tonnage fees applicable at the return port call.
The discount will be reflected in the tonnage fees invoice for the return port call.
