

## Port of Ashburton – Depth declarations

Number: A21/2026

Date: 14/10/2026

|                          |                                        |
|--------------------------|----------------------------------------|
| Date of effect:          | 14/10/2026                             |
| Details:                 | Port of Ashburton – Depth declarations |
| Former notice:           | A18/2026                               |
| Charts and publications: | AUS 64 and ENC cell AU5ASB01           |
| Further notice:          | Until superseded                       |
| Attachments:             | Chartlets depicting declared depths    |

Port users are advised that, based on the recent hydrographic survey conducted at Ashburton Cargo Wharf (ACW), including the ACW channel and Mineral Resources Limited Terminal (MRLT), the depths have been re-declared as shown in the table below.

Mariners are requested to take note of the changes to these depths. All depths and tides are referred to 'Ashburton Port Datum (2020)'. The area chartlets for the declared depths are shown on the pages below.

| Area name                      | Declared depth at lowest astronomical tide (LAT) in meters (m) | Chartlet ID |
|--------------------------------|----------------------------------------------------------------|-------------|
| WMT LNG Channel                | 13.50 m                                                        | A           |
| WMT Swing Basin                | 13.50 m                                                        | A           |
| WMT Berth Pocket               | 13.50 m                                                        | B           |
| ACW Channel                    | 7.00 m*                                                        | C           |
| ACW Swing Basin                | 6.90 m*                                                        | C           |
| ACW Tug Pens                   | 7.00 m*                                                        | C           |
| ACW Eastern Quay Berth Pocket  | 7.90 m*                                                        | C           |
| ACW Southern Quay Berth Pocket | 7.90 m*                                                        | C           |
| ACW Western Ro-Ro Berth Pocket | 7.90 m*                                                        | C           |
| MRLT Berth Pocket              | 7.10 m*                                                        | C           |

**\*Note: Change in depth since the last survey**
