
LA26-004 – TEMPORARY ROAD CLOSURE AND TRAFFIC DIVERSION

ATTENTION: All Port of Ashburton site users
ISSUE DATE: 14/10/2026
ISSUED BY: Landside Operations Supervisor (Ashburton)

Pilbara Ports advises that, due to excavation works associated with notice [LA26-001](#) – *Fire Water and Desalination Plant Construction Works*, the side road providing access to the western laydown areas and tug pen will be closed from **Friday 16 October**.

The road closure will be in effect 24 hours per day and is expected to remain in place for approximately **2 weeks**, subject to construction progress.

Vehicles requiring access to the western side of the port must utilise the signed detour route via the main wharf access road and wharf area, as shown on the attached traffic management plan.

Access to all operational areas will remain available via the detour route.

Road users should allow additional travel time and exercise caution when travelling through the diversion route.

Oversize vehicle movements remain subject to existing requirements. Operators must continue to notify Landside Operations and comply with Oversize Vehicle Permit requirements prior to movement.

All personnel must obey signage, traffic management controls and any directions provided by authorised personnel.

We appreciate your cooperation while these works are undertaken. Any queries regarding this notice should be directed to Landside Operations via the contact details below.
